

DISCOVER MORE ABOUT OUR UNIVERSE:

H.R. MACMILLAN PLANETARIUM

Vancouver's popular Planetarium features everyone's old friend "Harold" the Star Projector, and offers multimedia presentations about Earth and space science and astronomy.

COSMIC COURTYARD EXHIBIT GALLERY

Visit our unique, space-themed, hands-on gallery. Students can morph into an alien, touch a moon rock or even try to lift a meteorite.

VIRTUAL VOYAGES™ MOTION SIMULATOR

Bring the excitement of space to life. Our 30-seat motion simulator combines science and entertainment into an out-of-this-world experience.

GROUNDSTATION CANADA THEATRE

Join our staff for live demonstrations and audience participation in this multimedia theatre. Students will discover more about living and travelling in space, rocketry, or the science of stars.

Plus

HANDS-ON WORKSHOPS

Students will discover more about rockets, phases of the moon, or the solar system through hands-on activities designed to stimulate creative and critical thinking.
